

NOW IS THE
TIME FOR AN

UPGRADE!

NOW IS THE TIME FOR AN UPGRADE OF YOUR LEGACY NIAGARA AX SYSTEM TO N4:

On July 1 2021, Tridium's entire AX product line will be obsolete. The legacy AX hardware (JACE), software, and licenses will no longer be sold or supported.

In most cases, existing software migrates, making the upgrade cost effective. Convergentz has partnered with Distech, which uses the latest Tridium technology in their products.

BENEFITS OF UPGRADING TO N4:

- Faster and easier to use
- Less reliant on browser plug-ins (java)
- All new user interface (HTML5, rich UI features)
- Powerful security
- Easier integration capabilities

LET US BE YOUR TRUSTED PARTNER. FOR MORE DETAILS CONTACT YOUR ACCOUNT EXECUTIVE.
